How to use / When it’s useful

Quick answer: attach the patch to any garment or panel with matching Velcro; it fits standard camouflage suits, jacket sleeves and hook-and-loop panels. In most cases, the patch is used for identification, collection displays or as a historical insignia on tactical gear.

Use it on field uniforms, garment shoulder panels, patrol jackets or kit with Velcro. It is useful for collectors, reenactors and those maintaining period-correct or service-related gear where a low-visibility emblem is preferred.

Care and notes

Basic care helps keep the patch looking its best and preserves the Velcro backing.

- Avoid high heat: remove before ironing or machine drying to protect embroidery and Velcro.
- Hand wash the garment when possible or follow garment care instructions with the patch removed.
- Check local rules before wearing on official uniforms—this item is a commemorative insignia and may not be authorized for all official use.
