How to use / When it’s useful

Quick answer: use this shirt as the summer duty shirt for service and garrison wear where the Esercito uniform is required. It is suitable for daily duty, administrative tasks and any warm-weather service where a neat, serviceable appearance is needed.

In most cases, the shirt works well as a primary summer uniform layer or as a comfortable, presentable option for non-combat duties. Its fabric balance offers breathability while keeping a structured look during long shifts.
