Product short description:

The Passamontagna Collare Pile Verde Oliva is a fleece balaclava-style collar made for outdoor enthusiasts and everyday urban use. It offers lightweight insulation and adaptable coverage to help you stay warm in cold conditions.

- **Material:** Soft fleece for comfortable, lightweight warmth.
- **Design:** Ergonomic collar/balaclava shape for a secure, low-profile fit.
- **Warmth:** Retains heat while maintaining breathability during activity.
- **Color:** Olive green for a natural, versatile look.
- **Use:** Suitable for skiing, trekking, commuting, and daily wear.

Product description:

Product overview

The Passamontagna Collare Pile Verde Oliva is a fleece collar-style balaclava designed for adults who need reliable cold-weather protection while keeping a wide field of view. It suits outdoor users, tactical operators, and anyone seeking a practical neck gaiter and hood in one.

Definition: a one-piece olive green fleece garment that combines a collar and balaclava to protect the neck, chin and lower face from wind and cold.

Main features

Simple, durable design made from soft olive-green fleece that balances warmth and mobility. Ideal for tactical, military surplus, duty, and outdoor use.

- **Material:** soft, warm olive-green fleece (pile).
- **Integrated design:** combines collar and hood for continuous protection.
- **Adjustable opening:** can be extended under the chin for fuller coverage.
- **One size:** single size fits most adult face and neck shapes.
- **Wide field of view:** designed to leave the eyes and peripheral vision clear.
- **Durable construction:** designed for regular outdoor use.

How to use / When it’s useful

Wear it as a neck gaiter, pull it up over the mouth and nose for a hooded balaclava, or fold it down as a simple collar. It adapts quickly to changing conditions and activities.

Quick answer: use it for cold-weather walking, trekking, skiing, running, or duty shifts where wind protection is needed.
In most cases, adjust the opening under the chin for extra coverage or pull it down for ventilation and communication.

Care and notes

Easy-care fleece intended for repeated use. Follow these simple instructions to keep the fabric soft and effective.

- Wash by hand or machine on a gentle cycle.
- Do not use bleach; air dry away from direct heat.
- One size is intended for adults; check fit before use for children or smaller faces.
- Avoid exposing the fabric to abrasive surfaces to maintain durability.

FAQ

Q: Is this balaclava suitable for sports and outdoor activities?

A: Yes. The fleece design is suitable for trekking, skiing, running and general outdoor use where

wind and cold protection are needed.

Q: How should I clean the Passamontagna Collare Pile Verde Oliva?

A: Wash by hand or in a washing machine on a gentle cycle. Do not use bleach and let it air dry to preserve the fleece.

Q: Are there other sizes available?

A: The product is offered in one universal size designed to fit most adults. Check fit for smaller faces or children before use.

Q: Is olive green the only color option?

A: Currently this model is available only in olive green, chosen for its versatile, low-profile appearance.

Q: Can this be used for tactical or duty applications?

A: Yes. Its low-profile color and integrated collar/hood make it suitable for tactical, duty, and military surplus use where simple, reliable warmth is needed.

Q: Is the field of view restricted when worn?

A: No. The design maintains a wide field of view so you can move and operate safely while staying protected from wind and cold.

Tip: Check the fit before purchase—this one-size model is aimed at adults. Consider browsing related tactical neck gaiters and balaclavas to find the best match for your activity and gear.
