How to use / When it’s useful

Use the wallet as your primary ID and card holder during duty shifts or inspections; remove the badge plate when you need to present or store the ID separately. It fits easily into a jacket pocket, chest pocket, or duty pouch for tactical or police work.

Quick answer: carry your service ID, a few cards and cash in a compact, professional wallet. In most cases, present your ID with the badge attached or removed depending on operational needs; the removable plate makes both options simple.
