- **Use:** Versatile design that complements both casual and refined looks.
- **Fit:** Classic beret shape that sits neatly and adds a polished touch to your wardrobe.
- **Colours:** Available in a variety of colors to suit different styles and preferences.

Product description:

Product overview

The Basco Palombari Modello Spagnolo is a professional diver's beret designed for military and duty personnel, especially diving units and maritime services. Definition: a wool-blend beret made for professional use, combining a tailored look with functional details.

Made from a 94% wool / 6% nylon mix in a dark sugar-paper blue (carta da zucchero scuro), this beret balances structure, comfort and durability for tactical, military surplus and police uniforms.

Main features

Key design and comfort elements are built for operational wear and uniform use.

- **Fabric:** 94% wool, 6% nylon for strength and comfort.
- **Color:** dark sugar-paper blue (carta da zucchero scuro), versatile with many uniforms.
- **Gross-grain edge:** reinforced rim for extra durability and a clean finish.
- **Badge reinforcement:** left parietal side reinforced for secure application of a fregio (badge).
- **Inner mesh lining:** breathable lining with two side eyelets for ventilation.
- **Size and fit:** 22 cm plate diameter with rear strap adjustment for a custom fit.

How to use / When it’s useful

Quick answer: wear it as part of a uniform for duties, ceremonies, or when a professional appearance is required. The reinforced badge area makes it suitable for official insignia.

In most cases, the beret is useful year-round thanks to the mesh lining and ventilation eyelets; use the rear strap to adjust fit for comfort during long shifts or active duty. It complements tactical, military surplus and police gear.

Care and notes

Simple care keeps the beret looking correct and maintains fit.

- Follow the garment care label for cleaning—professional or gentle wool care is recommended.
- Avoid prolonged soaking or mechanical drying to reduce the risk of wool shrinkage.
- Use the rear strap to adjust fit rather than stretching the fabric.
- Store flat or on a suitable beret form to keep the plate shape (22 cm).

FAQ

Q: What materials are used in the Basco Palombari Modello Spagnolo?

A: The beret is made of 94% wool and 6% nylon, offering a mix of durability and comfort suitable for uniform use.

Q: Is the basco available in different sizes?

A: Yes. It is offered in multiple sizes and includes a rear strap (fettuccia) that allows tightening or

loosening for a tailored fit.

Q: How is a fregio (badge) attached?

A: The left parietal side has a reinforced area specifically designed for secure badge application and neat placement.

Q: Is this beret suitable for all seasons?

A: The inner mesh lining and two side eyelets provide ventilation, making the beret suitable for year-round wear in most climates.

Q: What color is the beret and will it match my uniform?

A: The color is dark sugar-paper blue (carta da zucchero scuro), a sober, versatile shade that pairs well with many uniform styles.

Q: What is the plate size of the basco?

A: The plate measures 22 cm in diameter, a standard balance of style and practicality for divers' berets.

Tip: Choose the correct size and variant for your uniform and role; check the rear adjustment and badge placement before finalizing. Browse related tactical and duty headgear to complete your uniform setup.
