How to use / When it’s useful

Use this beret for ceremonial wear, uniform displays, historical reenactment or as a collector’s item from military surplus and tactical gear. Quick answer: suitable for display or light duty/uniform use, not heavy field wear.

For styling, position the beret with the badge centered and the plate at about 22 cm across the head; the plume can be attached for formal occasions and removed for storage. In most cases, follow the size guide to choose the correct fit and remove the piumetto before dry cleaning or compact storage.

Care and notes

Simple care keeps the beret in shape and preserves its historic details.

- Dry clean only to protect the wool and badge.
- Store flat or on a hat form to maintain shape; avoid prolonged moisture.
- Remove the plume before cleaning or packing; the piumetto uses a metal support for attachment.
- Note: the model was discontinued without the plume on 1 November 2015; availability is limited.
