How to use / When it’s useful

Quick answer: Apply the patch with the heat of an iron to attach it to the operational suit; no stitches are required for initial application. In most cases, the thermoadhesive backing gives a secure hold for standard uniform use.

The patch is useful whenever clear identification of Servizio Cinofili personnel is needed—patrols, training, or formal duty shifts. It also serves collectors who hold the necessary prefettizia license under art. 28 TULPS and supply proof when requested.

Care and notes

Basic handling and purchase notes to keep the patch in good condition and comply with purchase rules:

- Apply using an iron's heat according to standard thermoadhesive procedures; initial attachment does not require sewing.
- Verify eligibility before purchase: shipping is to the Comando or after presentation of service ID or authorized license.
- Follow normal garment care after application; treat as an embroidered uniform patch to preserve stitching.
