UPC: 658606559363

**Product features:**

**Product short description:**

Thinsulate Olive Green Thermal Gloves provide dependable warmth with minimal bulk. Ideal for outdoor activities and keeping hands warm during city walks, they combine practical protection with a clean, military-inspired appearance.

- **Material:** Built with Thinsulate insulation to trap heat while remaining slim and unobtrusive.
- **Insulation:** Provides thermal protection for cold weather without added volume, helping preserve dexterity.
- **Color:** Olive green finish offers a low-profile, versatile look that pairs well with winter clothing.
- **Fit:** Ergonomic design ensures freedom of movement and a secure grip, practical for outdoor use or urban walking.

**Product description:**

### Product overview

The Thinsulate Olive Green Thermal Gloves are acrylic winter gloves with an inner Thinsulate

lining, designed for outdoor enthusiasts and professionals who need reliable cold-weather hand protection. They are suitable for hiking, mountaineering, casual winter use, and tactical or duty applications where warmth and comfort matter.

Definition: These are olive green, Thinsulate-lined thermal gloves that provide added insulation in cold conditions. Keywords: tactical gloves, military surplus style, duty and police friendly.

**Main features**

Built for warmth, comfort and everyday outdoor use, these gloves balance soft materials with durable construction.

- **High-quality material:** Acrylic outer shell for durable wear and everyday resistance to abrasion.
- **Thinsulate insulation:** Inner Thinsulate lining for thermal insulation while keeping bulk low.
- **Versatile use:** Suitable for hiking, trekking, mountaineering and general outdoor or duty tasks.
- **Comfort-focused design:** Ergonomic shape and soft fabric for extended wear without chafing.
- **Neutral olive color:** Olive green finish that fits tactical, military surplus and casual outdoor styles.

**How to use / When it’s useful**

Quick answer: Use these gloves whenever you need added warmth in cold, dry or mildly wet conditions. They are not intended for heavy rain or full submersion.

In most cases, they perform well for winter walks, day hikes, and outdoor work where dexterity and insulation are needed. For prolonged exposure to heavy moisture, consider fully waterproof alternatives.

**Care and notes**

Simple care extends lifespan—treat them gently and avoid harsh cleaning methods.

- Hand wash in lukewarm water with mild detergent.
- Avoid bleach and strong chemicals that can damage fibers.
- Do not tumble dry; air dry flat to keep shape and insulation performance.
- Water-resistant but not fully waterproof—avoid prolonged exposure to heavy rain.

## FAQ

**Q:** What sizes are available?

**A:** Sizes range from S to XL. Check our size guide on the product page to select the best fit for your hand measurements.

**Q:** Are these gloves waterproof?

**A:** No, they are water-resistant and suitable for light moisture, but not fully waterproof. For heavy rain or water immersion choose a waterproof glove instead.

**Q:** How should I wash the gloves?

**A:** Hand wash in lukewarm water with a mild detergent and rinse thoroughly. Do not use bleach and avoid machine drying to preserve the Thinsulate lining.

**Q:** Can I use these gloves for winter sports?

**A:** Yes, they are suitable for activities like hiking, trekking and alpine day-use where insulation and dexterity are needed. For high-intensity or wet snow conditions, consider gloves with specific sport ratings.

**Q:** How long will the gloves last with regular use?

**A:** With proper care and normal use, the durable acrylic shell and quality construction mean they can last several seasons. Avoid abrasive tasks to extend life.

**Q:** Do these gloves work for tactical or police duty?

**A:** Their olive color and practical design make them suitable for many duty or tactical roles that require warmth and moderate dexterity. They are not specialized ballistic or protective gloves.

**Tip:** Choose the right size for a snug fit and browse matching winter accessories or replacement pairs to ensure continuous protection during the cold season.
