Product short description:

The Vegetated Tactical Vest with Holster is a practical vest for outdoor enthusiasts and airsoft players. Made from durable materials with an ergonomic cut, it offers comfort and mobility while keeping essentials within easy reach.

- **Material:** Durable, long-lasting construction suited to regular outdoor use.
- **Use:** Designed for airsoft, hiking and other outdoor activities where quick access to gear is needed.
- **Carry:** Integrated holster plus multiple pockets and pouches for small items and accessories.
- **Camouflage:** Vegetated camouflage pattern for effective concealment in natural environments.

Product description:

Product overview

The Gilet Tattico Vegetato con Fondina is a tactical vest designed for professionals and outdoor enthusiasts who need a durable, functional load-bearing vest for patrols, training, or field activities. It combines breathable materials with modular storage to keep essentials accessible.

Definition: A modular tactical vest with a detachable holster, multiple pouches and a MOLLE anchor system, built for duty, police, and military surplus use.

Main features

Built for comfort, durability and quick customization, the vest includes adjustable fittings and several storage options.

- **Durable materials:** Constructed from nylon and cordura vegetata 600 DENIER for wear resistance and long service life.
- **Adjustable fit:** Shoulder adjustment with two Velcro straps, three sliding side straps per side and D-rings for accessory attachment.
- **Modular storage:** Three utility pouches on the right side and one on the left, plus a detachable holster secured with Velcro.
- **Front pockets:** Compass pocket, two upper-left ammo pockets and an additional pouch on the right for small gear.
- **MOLLE and recovery handle:** Rear MOLLE anchor system for extra accessories and an operator drag handle for emergency recovery.
- **Internal storage:** Two front zip pockets inside and a rear pocket sized for an hydro-bag (hydration bladder).

How to use / When it’s useful

Quick answer: Use this vest for patrols, training, fieldwork, hunting or any activity where modular storage, hydration and quick access to gear are needed. It works well as a tactical, duty or military surplus item.

In most cases, set the shoulder Velcro and side straps for a secure fit, place a hydration bladder in the rear pocket if needed, and attach pouches or accessories to the MOLLE webbing for mission-specific loadouts.

Care and notes

Basic care and regular checks will keep the vest serviceable and safe to use.

- Spot clean with a damp cloth and mild soap; avoid harsh chemicals and machine washing

when possible.
- Inspect Velcro, straps and D-rings regularly for wear and replace damaged parts as needed.
- Not certified as ballistic protection; this product is a load-bearing vest and accessory platform only.

FAQ

Q: Is the vest adjustable for different body sizes?

A: Yes. It has Velcro shoulder straps and three sliding side straps per side to achieve a custom fit for most body shapes.

Q: Can I add extra pouches and accessories?

A: Yes. The rear MOLLE system allows you to attach compatible pouches, radio mounts and other accessories for tactical or duty use.

Q: Is the holster removable?

A: Yes. The holster is detachable and secured with Velcro to provide flexibility in loadout and carry options.

Q: Is this vest suitable for use in all seasons?

A: The breathable nylon and 600 DENIER cordura construction make it suitable for year-round use, including warm conditions where ventilation is helpful.

Q: Can the vest carry a hydration bladder?

A: Yes. There is a rear pocket designed to hold an hydro-bag (hydration bladder) for on-the-move hydration.

Q: What are the internal pocket sizes?

A: The vest includes two front zip pockets and a rear hydration pocket, all designed with generous capacity to hold maps, tools, or small equipment.

Tip: Choose the correct size and variant for your intended use, check strap adjustments before deployment, and browse related tactical vests and accessories to build a complete loadout.
